

Limited Edition Stone Lab Gear

Stone Lab is offering a "limited edition" run of a brand new design, on both short-sleeve and long-sleeve t-shirts. The shirts are high-quality 100% pre-shrunk cotton, ready for field work and the urban jungle alike. Once they're gone, these won't be printed again! Long-sleeve t-shirts come in "natural" (a creamy off-white) and are priced at \$18. Short-sleeve t-shirts come in tan or in light grey, and are priced at \$15.

Upcoming Application Deadlines

- 2013 National Marine Fisheries Service Sea Grant Fellowships in [Population Dynamics](#) and in [Marine Resource Economics](#): Jan 25
- [2014 John A. Knauss Marine Policy Fellowship](#): Feb 15
- Stone Lab's [Research Experience for Undergraduates Program](#): Feb 22

EDUCATION ▼

[A Little Boat with a Long Legacy](#)

A small yellow boat launched from Stone Lab 17 years ago became an international celebrity when it was found on the beach at Point Pelee National Park in Ontario, Canada. "Paddle to the Sea" Boat Number 7 was launched during the research cruise students take as part of Stone Lab field trips.

OUTREACH ▼

[2013 Winter Program & Silent Auction](#)

Ohio Sea Grant and the Friends of Stone Lab will host the 15th Annual Winter Program & Silent Auction on Jan 30 at the Longaberger Alumni House on Ohio State's main campus. Guests can learn about Stone Lab updates and bid in the silent auction, and college students can win a scholarship.

[Lake Erie Day at Progressive Mid-America Boat Show Benefits Ohio Sea Grant](#)

Visitors to the Progressive Mid-America Boat Show at Cleveland's I-X Center supported Ohio Sea Grant's research, education, and outreach efforts by purchasing admission on January 21, Lake Erie Day. The event's managing organization, Lake Erie Marine Trades Association (LEMTA), donated \$1 from admission tickets purchased that day to Stone Lab student scholarships.

Ohio Sea Grant Supports Toledo in Business

Retention

Ohio Sea Grant is working with the City of Toledo's Point Place Business Association to help the city better understand its economic opportunities, and to network between government and local businesses. The program is run in cooperation with Ohio State University Extension's Ohio Business Retention & Expansion (BR&E) Program. For more information, please contact [Joe Lucente](#).
