### RESEARCH

**The Ultimate Pan-Fried Fish**  
Ohio Sea Grant has contributed a feature article to NOAA's Climate.gov website, covering the impacts of climate change on Lake Erie perch, a popular staple of lakeshore restaurant menus.

### EDUCATION

**Ohio Sea Grant Charter Captains Conference**  
Lake Erie charter boat captains can learn about the 2014 fishing outlook, environmental conditions, licensing, regulations, and business management at the 33rd Charter Captains Conference on March 1.

### OUTREACH

**Stone Lab Spring Work Weekend**  
Bring your work gloves and help spruce up Stone Lab for the 2014 season at the FOSL Spring Work Weekend April 11-13. Participants can arrive Friday night and stay until Sunday or come for the day on Saturday.

## Ohio State Webinar To Discuss Carbon Storage in Great Lakes Forests

The Ohio State University Climate Change Outreach Team presents "Predicting carbon storage of Great Lakes forests in the year 2050: scientific challenges and management decisions" with Dr. Peter Curtis, Professor of Ecology at Ohio State University, on Thursday, February 27.
