RESEARCH EXPERIENCE FOR UNDERGRADUATES
FELLOWSHIP PROGRAM

Live the life of a professional researcher this summer!

Stone Lab’s Research Experience for Undergraduates (REU) Fellowship Program teaches students in eight weeks how to conduct scientific, in-the-field research alongside top scientists.

REU students spend their days focused on research. REU students work closely with their research supervisors to design an experiment, collect samples, learn how to analyze data and give a final presentation to their peers. Involvement can even continue beyond the summer, as students have the opportunity to attend local and regional conferences and co-author scientific journal articles about their research.

This year, the program runs from June 5 through July 28, 2023.

Students selected for the REU program receive a $5,500 stipend, paid as an hourly rate, as well as free room and meals.

HOW TO APPLY

> Submit the REU application at go.osu.edu/stonelabreuapp
> Applicants must submit:
  • Cover letter
  • Resume
  • College transcripts
  • Two letters of recommendation

All application materials must be received by February 25, 2023.

Selections will be made by the end of March.
